Expect to potentially pay a bit more than what you'd shell out for Office 2016 (currently 150 for the Home and Student version), as Microsoft already boosted the price of the commercial version ten percent to account for its significant value added to the product over time.. The notable additions here are support for 3D model displaymanipulation and SVG files on slides; new morph transitions; the ability to export your presentation in 4K UHD video format, and you can now write by hand and move elements with your pencil while editing.. Availability will be rolling out regular ol customers like you and me in the coming weeks.. Advertisement Outlook Like Word, Outlook is also getting a new focus mode, called the Focused Inbox, to help streamline workflow and email drafting.
